

To: All kind and generous patrons

Re: Appeal For Your Generosity In Supporting «Stone, Scissor, Paper» Green Smile Natural Edu Farm Fundraising Dinner

Warmest greeting to you, we are very grateful for your long term support for Care Haven. In order to achieve comprehensive development in adoption, education, and training; Care Haven had initiated a project in year 2013 to build "Green Smile Natural Edu Farm". Below is a summary for the project:

1. Project Theme:

Green Smile Project

2. Project Goal:

To let our orphans own an educational farm fostered in natural environment that belongs to them permanently. The educational farm will serve to accommodate and provide our orphans with education in academic knowledge, practical skills, humanities and environment conservation, so that they may grow up to become someone with "stable and good conduct" and "one who can provide for his/her own".

3. Project target:

The edu farm covers an area of 2.2 acre and is situated at Jalan Lombong, Kota Tinggi, Johor. **Land price: RM 1,000,000** (The land had been approved to be converted for industrial use)

4. Education Project:

(A) Academic education – strengthening academic knowledge of subjects taught in formal schools.

(B) Skill training – to be carried out in forms of workshops:

- a. Bakery.
- b. Carpentry.
- c. Ceramics.
- d. Arts.
- e. Natural way of agriculture.
- f. Husbandry.
- g. Mushroom cultivation.

(C) Humanities education.

a. Combining the idea of education through activities in natural environment and the philosophy of symbiosis in nature, to educate and mould the character of our children, to live a simple life and be thankful.

b. Training our children to be able to take on hardship, this is the education that Green Smile Project would like to instill in every child.

(D) Environment conservation – Living a simple, energy saving and environmental friendly life.

a. Rainwater collection, using natural spring water from mountain

b. Enzyme extraction

c. Recycling used stuffs

d. Using solar energy system to reduce electric use

The fund needed for land purchase and first phase of development is expected to be RM 1,800,000 in total. Care Haven had managed to raise RM 400,000 in the fundraising concert "A Homing Wish" held on 5th October last year, therefore we are still short of RM1,400,000 from our goal. Hence, Care Haven will be holding a second fundraising dinner on 28th June 2014 (Saturday, commence at 7pm sharp) at Restorant Pekin Sutera Mall to raise for the remaining fund needed.

Let us achieve the project goal and benefit the less-fortunate children, thanks.

Committee of Fundraising Dinner for

«Stone, Scissor, Paper» Green Smile Natural Edu Farm Project
